In re Application of :  
Levnat : DECISION REFUSING STATUS  
Application No. 10/719,622 : UNDER 37 CFR 1.47(b)  
Filed: November 21, 2003 :  
Atty. Dkt. No.: 847-072 :  
For: STAINLESS STEEL UNSEALED :  
MOTOR :

This decision is in response to the petition under 37 CFR 1.47(b),  
filed May 28, 2004.

The petition is **DISMISSED**.

Rule 47 applicant is given TWO MONTHS from the mailing date of this  
decision to reply, correcting the below-noted deficiencies. Any  
reply should be entitled "Request for Reconsideration of Petition  
Under 37 CFR 1.47(b)," and should only address the deficiencies  
noted below, except that the reply may include an oath or  
declaration executed by the non-signing inventor. Failure to  
respond will result in abandonment of the application. Any  
extensions of time will be governed by 37 CFR 1.136(a).

The above-identified application was filed November 21, 2003  
without an executed oath or declaration and naming Moshe Levnat as  
sole inventor. Accordingly, a Notice to File Missing Parts of  
Nonprovisional Application was mailed March 8, 2004. Petitioner  
responded with the instant petition on May 28, 2004. The response  
lacked the required declaration. Hence, a Notice of Incomplete  
Reply was mailed April 14, 2004. There is no indication in the  
official application file that a response to the Notice of  
Incomplete Reply has been filed.

A grantable petition under 37 CFR 1.47(b) requires: (1) proof that  
the non-signing inventor cannot be reached or refuses to sign the  
oath or declaration after having been presented with the  
application papers (specification, claims and drawings); (2) an  
acceptable oath or declaration in compliance with 35 U.S.C. §§ 115

and 116; (3) the petition fee; (4) a statement of the last known address of the non-signing inventor; (5) proof of proprietary interest; and (6) a showing that such action is required to preserve the rights of the parties or to prevent irreparable damages.

The instant petition lacks items (2), (4), and (5).

The instant petition lacks item (2) set forth above. An acceptable oath or declaration for the patent application in compliance with 37 CFR 1.63 and 1.64 has not been presented. Any renewed petition must be accompanied by an oath or declaration in accordance with 37 CFR 1.63 and 1.64. The declaration should be executed by a corporate officer, such as the president, vice president, secretary, or treasurer of the assignee on behalf of and as agent for the non-signing inventor. The corporate officer's title or position must be identified in the declaration. If an officer is unavailable to execute the declaration, the declaration may be signed on behalf of the corporation by one whose proof of signing authority has been submitted to the Office, such as the corporation's attorney. The signature block of the non-signing inventor should remain unexecuted. Petitioner's attention is directed to MPEP 409.03(b) for further guidance.

As to item (4), the petition lacks a statement setting forth the last known address of the inventor. Any renewed petition should include a short statement setting forth the last known legal address of the inventor.

As to item (5), petitioner has presented no evidence of proprietary interest in the above-referenced application. Any renewed petition must establish that the invention has been assigned to applicant, that the inventor has agreed in writing to assign the invention to an applicant, or that an applicant otherwise has sufficient proprietary interest in the subject matter to justify the filing of the application. Petitioner must submit a copy of employment agreement between the inventor and an applicant or a legal memorandum signed by an attorney familiar with the law of the jurisdiction stating that a court of competent jurisdiction would by weight of authority in that jurisdiction award title of the invention to a Rule 47 applicant.

Further correspondence with respect to this matter should be addressed as follows:
